**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Having less choice and less competition with broadband, a service that is becoming the single most important utility in modern society, means a lack of competition, poor service, and no where else to go.

In my city, Vallejo, there are basically two choices: Comcast or AT&T and that's it. Neither one has incentive to provide lower prices. Neither one provides good service. If it wasn't for Sonic, my local provider, I would be at the mercy of these two (both of which I've already tried and left).

As a small business owner, internet is critical to my business to find new clients, do my work, and communicate with existing clients.

Please support broadband competition denying US Telecom's petition to take away access to critical unbundled network elements.

Thank you,

Lou Bustamante
